

## Human figure in clay

### Material list

I will pre-order clay for you from Boesner (3 10 kg clay Terra 104 packs per TN). You can return the originally packaged and undamaged clay pots. The clay used will be paid for at Boesner (just opposite the Academy).

Please bring your modelling tools with you.

If you don't have one, no problem. I will bring useful modelling tools, which can be purchased from me.

If you have one, please bring your stable rim disc (not an IKEA turntable or similar). It makes sense to print this out in A4 and laminate it.

Please also bring a sturdy box and filling material for transporting your work home.

**Attention! Important!** All participants of the figure course should get in touch with me about 2-3 weeks before the start of the course regarding their plans. Unfortunately, not everything is possible in the short time available.
