

Dear course ,

It would be very important to bring your own copper plates in 1mm thickness.

Preferably in the usual formats (which are available from Boesner and Gerstäcker), between 10x10 and 25x25 (30). For the more experienced it could also 30x40. It has been shown that you always make 3 to 4 motifs (depending on the size!). If you want to add a colour, you need a second plate of the same size. If necessary, I have a few plates with me. I would recommend plate sizes between 15x20 and 20x30.

Templates in the planned panel size are an advantage in order to be able to transfer the motif more easily.

Please also bring a normal dust mask for the aquatint and normal kitchen gloves for etching.

Of course, suitable work clothes and a folder for transporting the finished prints in the format of approx. 40x50 (for plate size 30x40 in approx. 44x54).

**A contribution towards expenses approx. 55 euros will be charged for the materials I provide. This amount includes paper, printing inks, solvents, etching grounds, top coats, etc.**

If you any questions, please call me on 0043699 1111 8292, orr.votmann@drei.at I look forward to a creative week, best regards

Rainer
