

Material list

Mixed media and collage - In dialogue with nature
with Nils Hoffmann (6 - 11 April 2026)

As we a lot with the topic of collage, it is helpful if some relatively flat found objects and things from nature or even from cellar, attic etc. can be brought along.

These things should generally be suitable for fixing to the flat picture background.

However, everyone can and should bring their favourite materials.

Absolutely necessary:

Painting surfaces such as canvases and firm paper, acrylic paints, brushes, palette knife, scissors, adhesives (e.g. UHU and Ponal), simple painting cloths, mixing containers for paint and old clothes.

Further optional materials:

Wax crayons, pastel colours, coloured pencils, ink, charcoal pencils etc ...

We do not work with oil paints (also because of the solvents involved), but all other water-based paints are ideal.

If not available, all painting materials can be purchased from the Boesner speciality shop directly opposite the academy.
